

Atlas Copco

Lubricants

Atlas Copco compressors, dryers, and generators have been built to last. Day in, day out, they deliver power in the most efficient and cost-effective manner. They provide a driving force in your business, allowing no margin for error.

To safeguard the high operating standards for which we designed this equipment and to benefit fully from its high reliability and long service life, it is essential to use only the most appropriate lubricants and coolants.

No one is better placed than Atlas Copco to formulate the exact oil specifications for its equipment. No other lubricant and coolant is a better match for our precision mechanics and no other oil or grease can guarantee the optimal performance of every Atlas Copco component.

For Atlas Copco compressors, dryers, and generators, Atlas Copco lubricants and coolants are the only real choice.

Atlas Copco Lubricants and Coolants:

- Formulated for each specific compressor/dryer/generator.
- Optimal performance of every moving part.
 - Maximum component service life and continuous machine operation.
 - Allows longer service intervals.
 - Blend stability and lubricant quality guaranteed.
- Guaranteed consistent performance from a single source supplier.
